FACIAL TREATMENTS

Intuisse

Swiss Longevity Science

Introducing Intuisse, Active NAD+ skincare. NAD+, the body's own miracle molecule, is essential to DNA repair and healthy cell lifespan. With age, our intracellular NAD+ levels decline significantly.

Our cutting-edge formulations combine potent clean actives (including peptides, squalane, centella asiatica, prebiotics and natural enzymes), and the latest molecular technology to promote cell renewal and combat signs of aging. By releasing its proprietary formulation of liposomal Active NAD+ directly into skin cells, Intuisse significantly increases collagen, elastin and laminin production for pure radiance.

The result: your skin not only looks healthier, it is healthier.

Clinically proven. Non-GMO.
